Your payments are in good company

With **\$1 billion** invested in compliance over 5 years*, we're confident in our ability to help you navigate complex markets.

Trusted by over 700 law firms around the globe to reliably manage their payments.

Proactive regulatory engagement and compliance frameworks designed around industry standards.

Dedicated in-country teams focused on local compliance requirements and sanctioned country regulations.

Streamlined client billing

Future Payments can help your firm streamline client billing for foreign associates and vendors invoices. Manage exchange rate fluctuations by securing a fixed exchange rate and billing clients a fixed UK pound cost.

This helps you forecast future expenses in UK pounds, and minimise the need to re-bill clients or absorb costs due to exchange rate fluctuations.

It's important to note, when you enter a Future Payment you are locking in a fixed rate for the invoice and will be required to pay in full, even if the market moves in your favour. Cancellations may result in losses (or gains) based on market movement.

Credit notes

Impacts to your cash flow can be reduced by processing credit notes using our online payments platform. Receive immediate valuation for a note which can be factored into the billing or kept on hold to apply to a future invoice for the same foreign associate.

Flexible solutions to meet your needs

Help increase efficiencies with electronic payroll and T&E reimbursements processing.

Streamline checks and costly wire transactions through electronic ACH (Automated Clearing House) payments.

Ensure your payee receives the full amount by sending local currency through our Domestic ACH solution.

Help manage your firm's exposure to currency risk by utilising our hedging services.
