Regulator	<a href="#">Austrian Financial Market Authority (Finanzmarktaufsicht)</a>
Document Date	05/02/2021

**NOTE: You are about to purchase a product that is not simple and may be difficult to understand**

### What is this Product?

**Type** An over-the-counter (OTC) foreign exchange derivative structure - Knock In Participator - Knock In Participator Window - Knock In Participator At Expiry

**Description:** The Knock In Participator is a Structured Options which allows you to protect against the risk that the GBPUSD rate will be less favourable than a nominated foreign exchange rate (the Protection Rate). It also gives you the ability to participate in favourable movements in the GBPUSD rate on a portion of your exposure provided that a Knock In Rate is not traded during the term of the structure. As you only participate in part of the favourable GBPUSD movement, this product will typically offer a more favourable protection rate and/or knock in barrier than a standard knock in option.

A Knock In – Participator is structured by entering into three concurrent options. In the first you buy a Put Option giving you the right, but no obligation to sell the Protected Amount from WUIB at the Protection Rate. In the second you sell a Call Option (an option to buy) to WUIB at the Protection Rate. The Call Option that you sell will be for a percentage of the contract amount of your Put Option (the “Participation Percentage”). In the third option you sell a Call Option with a Knock In Rate (an option that is contingent upon the Spot Rate trading at or outside the Knock In Rate prior to the Expiry Date or during the Window) to WUIB at the Protection Rate. The third option that you will sell will be equal to the contract amount less the amount of the second option.

Where applicable, a Window Barrier can only be triggered during a specified period of time, rather than throughout the life of the contract, while an At Expiry barrier can only be triggered at the expiry time on the expiry date

Protection Rate	1.3532	Protected Amount	EUR 10,000
		Obligated Amount	EUR 10,000
Knock In Barrier	1.5028	Expiry	05/11/2021

**Intended Retail Investor** This product is suitable for any corporate customer that has some prior experience of hedging currency risk, using either forwards or options, who wants to protect against downside risk without forgoing the ability to participate to some degree in favourable rate moves.

**Term** This Document assumes a term of 9 months, a typical duration for this structure type; however, the term of the contract will be agreed with you when entering into the deal. Once agreed, the buyer retains the right to request cancellation of the contract prior to expiry on demand, although this will incur a cost (see below). Western Union reserves the right to terminate the contract only in circumstances where the buyer is in breach of the contract terms, or becomes insolvent.

## What are the risks and what could I get in return?

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 9 months. The actual risk can vary significantly if you end your product at an early stage and you may get back less. You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

The Summary Risk Indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

**We have classified this product as 7 out of 7, which is the highest risk class.** This rates the potential losses from future market performance at a very high level, and poor market conditions are very likely to impact the capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

In some circumstances you may be required to make payments to pay for losses. The total loss you may incur may significantly exceed the amount invested.

**If we are not able to pay you what is owed, you could incur significant losses**

Nominal Amount		EUR 10,000	
Scenarios		9 months (Recommended Holding Period)	
Stress Scenario	<b>What you might get back or pay after costs</b>	EUR -3,611	
	Percentage return/loss over nominal amount	-36%	
Unfavourable Scenario	<b>What you might get back or pay after costs</b>	EUR -1,204	
	Percentage return/loss over nominal amount	-12%	
Moderate Scenario	<b>What you might get back or pay after costs</b>	EUR 76	
	Percentage return/loss over nominal amount	1%	
Favourable Scenario	<b>What you might get back or pay after costs</b>	EUR 924	
	Percentage return/loss over nominal amount	9%	

The table shows the money you could get back or pay over the next 9 months (Recommended Holding Period), under different scenarios, assuming a nominal value of EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios for other products.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this product varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product

This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end before the end of the recommended holding period. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What Happens If Western Union International Bank GmbH is unable to pay out?

As counterparty to your product you are relying upon WUIB's financial ability to fulfil its obligations to you upon maturity of the contract. This means that if WUIB is unable to pay out, you may not receive any amount at maturity of this contract. To aid in your assessment of this risk WUIB will provide you with a copy of its latest audited financial statements upon request. You may request a copy of our most recent financial statements by emailing us at [options@westernunion.com](mailto:options@westernunion.com).
