Document Date	05/02/2021

NOTE: You are about to purchase a product that is not simple and may be difficult to understand

What is this Product?

Type An over-the-counter (OTC) foreign exchange derivative structure - Leveraged Participating Collar

Description: The Leveraged Participating Collar is a Structured Option which behaves in the same way as the non leveraged variant. It allows you to protect against the risk that the EURUSD rate will be less favourable than a nominated worst case rate known as the Protection Rate. It also gives you the opportunity to participate in favourable movements at the Participation Percentage - in the EURUSD rate between the Protection Rate and a given best case rate known as the Participation Rate. However, in order to make the Protection Rate, Participation Percentage and/or the Participation Rate more attractive at the outset, you agree that, should the EURUSD rate be more favourable than the Participation Rate at expiry, you will be obliged to deal a larger Leveraged Amount at the Participation Rate.

A Leveraged Participating Collar is structured by entering into three concurrent options. In the first you buy a Put Option from WUIB giving you the right, but no obligation to deal the Protected Amount of currency with WUIB at the Protection Rate. In the second you sell a Call Option to WUIB which will oblige you to deal a proportion of the Leveraged Amount with WUIB at the Protection Rate. This Call Option will usually be for 50% of the Protected Amount. In the third option, you sell a second Call Option to WUIB at the Participation Rate. This third option may oblige you to trade the remainder of the Leveraged Amount at the Participation Rate if the spot price exceeds that level at the expiry time on the Expiry Date.

Protection Rate	1.1976	Protected Amount	EUR 10,000
Participation Rate	1.2934	Leveraged Amount	EUR 20,000
		Expiry	05/02/2022

Intended Retail Investor This product is suitable only for those corporate customers who have a higher degree of experience of hedging currency risk. As the potential obligation exceeds the amount protected, the buyer should also be in a strong financial situation and/or make use of other, less volatile hedging products in addition to this.

Term This Document assumes a term of 1 year, a typical duration for this structure type; however, the term of the contract will be agreed with you when entering into the deal. Once agreed, the buyer retains the right to request cancellation of the contract prior to expiry on demand, although this will incur a cost (see below). Western Union reserves the right to terminate the contract only in circumstances where the buyer is in breach of the contract terms, or becomes insolvent.

What are the risks and what could I get in return?

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 12 months. The actual risk can vary significantly if you end your product at an early stage and you may get back less. You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

The Summary Risk Indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future market performance at a very high level, and poor market conditions are very likely to impact the capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

In some circumstances you may be required to make payments to pay for losses. The total loss you may incur may significantly exceed the amount invested.

If we are not able to pay you what is owed, you could incur significant losses

Nominal Amount EUR 10,000

Scenarios		12 months (Recommended Holding Period)
Stress Scenario	What you might get back or pay after costs	EUR -3,235
	Percentage return/loss over nominal amount	-32%
Unfavourable Scenario	What you might get back or pay after costs	EUR -1,078
	Percentage return/loss over nominal amount	-11%
Moderate Scenario	What you might get back or pay after costs	EUR 800
	Percentage return/loss over nominal amount	8%
Favourable Scenario	What you might get back or pay after costs	EUR 988
	Percentage return/loss over nominal amount	10%

The table shows the money you could get back or pay over the next 12 months (Recommended Holding Period), under different scenarios, assuming a nominal value of EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios for other products.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this product varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product

This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end before the end of the recommended holding period. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What Happens If Western Union International Bank GmbH is unable to pay out?

As counterparty to your product you are relying upon WUIB's financial ability to fulfil its obligations to you upon maturity of the contract. This means that if WUIB is unable to pay out, you may not receive any amount at maturity of this contract. To aid in your assessment of this risk WUIB will provide you with a copy of its latest audited financial statements upon request. You may request a copy of our most recent financial statements by emailing us at options@westernunion.com.
