Document Date	05/02/2021

NOTE: You are about to purchase a product that is not simple and may be difficult to understand

What is this Product?

Type An over-the-counter (OTC) foreign exchange derivative structure - Knock Out Reset - Knock Out Reset Window - Knock Out Reset At Expiry

Description: The Knock Out Reset is a Structured Option that gives the buyer the benefit of achieving an enhanced exchange rate compared to the equivalent Forward Exchange Rate provided that the EURUSD rate remains within a specified range for the entire life of the structure. A Knock Out - Reset will always provide you with a guaranteed worst case rate allowing you to protect against the risk that the EURUSD rate is less favourable on expiry of the option.

A Knock Out - Reset is structured by entering into four concurrent options. You buy a Put option and sell a Call option from WUIB at the Initial Rate with a lower Knock Out barrier and a higher Knock Out barrier. This gives you the right (if spot is less favourable) or obligation (if spot is more favourable) to deal the Protected Amount with WUIB at the Initial Rate on expiry, provided that the underlying Spot Rate has not traded at or beyond either Knock Out barrier at any time during the life of the contract. You also buy a further Put Option and sell a further Call Option this time at the Reset Rate with a lower Knock In barrier and a higher Knock In barrier at the same levels as the Knock Out barriers above. This means should the options at the Initial Rate knock out, these ones knock in giving you the right or obligation to deal the Protected Amount with WUIB at the Reset Rate.

Where applicable, a Window Barrier can only be triggered during a specified period of time, rather than throughout the life of the contract, while an At Expiry barrier can only be triggered at the expiry time on the expiry date

Protection Rate	1.2096	Protected Amount	EUR 10,000
Reset Rate	1.1736	Obligated Amount	EUR 10,000
Knock In Barrier	1.2455	Expiry	05/02/2022

Intended Retail Investor This product is suitable for any corporate customer that has some prior experience of hedging currency risk, using either forwards or options, who wants to protect against downside risk without forgoing the ability to participate to some degree in favourable rate moves.

Term This Document assumes a term of 1 year, a typical duration for this structure type; however, the term of the contract will be agreed with you when entering into the deal. Once agreed, the buyer retains the right to request cancellation of the contract prior to expiry on demand, although this will incur a cost (see below). Western Union reserves the right to terminate the contract only in circumstances where the buyer is in breach of the contract terms, or becomes insolvent.

What are the risks and what could I get in return?

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 12 months. The actual risk can vary significantly if you end your product at an early stage and you may get back less. You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

The Summary Risk Indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future market performance at a very high level, and poor market conditions are very likely to impact the capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

In some circumstances you may be required to make payments to pay for losses. The total loss you may incur may significantly exceed the amount invested.

If we are not able to pay you what is owed, you could incur significant losses

Nominal Amount EUR 10,000

Scenarios		12 months (Recommended Holding Period)
Stress Scenario	What you might get back or pay after costs	EUR -2,904
	Percentage return/loss over nominal amount	-29%
Unfavourable Scenario	What you might get back or pay after costs	EUR -968
	Percentage return/loss over nominal amount	-10%
Moderate Scenario	What you might get back or pay after costs	EUR 474
	Percentage return/loss over nominal amount	5%
Favourable Scenario	What you might get back or pay after costs	EUR 1,078
	Percentage return/loss over nominal amount	11%

The table shows the money you could get back or pay over the next 12 months (Recommended Holding Period), under different scenarios, assuming a nominal value of EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios for other products.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this product varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product

This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end before the end of the recommended holding period. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What Happens If Western Union International Bank GmbH is unable to pay out?

As counterparty to your product you are relying upon WUIB's financial ability to fulfil its obligations to you upon maturity of the contract. This means that if WUIB is unable to pay out, you may not receive any amount at maturity of this contract. To aid in your assessment of this risk WUIB will provide you with a copy of its latest audited financial statements upon request. You may request a copy of our most recent financial statements by emailing us at options@westernunion.com.
