Website	https://business.westernunion.com/en-ie/
Contact Information	1 800 832 771
Regulator	Austrian Financial Market Authority (Finanzmarktaufsicht)
Document Date	05/02/2021

NOTE: You are about to purchase a product that is not simple and may be difficult to understand

What is this Product?

Type An over-the-counter (OTC) foreign exchange derivative structure - Leveraged TARF

Description: The Leveraged TARF is a Structured Option that works in much the same way as the non leveraged variant, but with one important difference. If, at a fixing date, the reference GBPUSD rate is more favourable than the Enhanced Rate, the buyer will be obligated to deal the Leveraged Amount at the Enhanced GBPUSD rate for that fixing. Once again, the Target Amount is unaffected should this happen, which means that, if the GBPUSD rate remains more favourable than the Enhanced Rate for a prolonged period, the Buyer will not only not be able to Participate, they will be obligated to deal a leveraged amount. This is done to further improve the Enhanced GBPUSD Rate, or to increase the amount of outperformance in the Target Amount.

On each fixing date the prevailing GBPUSD spot rate is compared to the Enhanced Rate on the TARF. If GBPUSD is trading less favourably than the Enhanced Rate you will have the right, but not the obligation to trade the fixing amount (Notional Amount divided by number of fixings) at the Enhanced Rate. If GBPUSD is trading at or more favourably than the Enhanced Rate, you will be obligated to trade the Leveraged Fixing Amount at the Enhanced Rate. If GBPUSD is less favourable than the Enhanced Rate, the difference is calculated and deducted from the Target Amount. Once the Target Amount runs out, the product ceases to exist

Target Amount:	2000 pips	Fixing Frequency:	Monthly
Number of Fixings	12	Max Amount per Fixing	1666.66
Enhanced Rate	1.4222	Notional Amount	EUR 10,000
		Leveraged Amount	EUR 20,000
		Expiry	05/02/2022

Intended Retail Investor This product is only suitable for those corporate customers with a very high degree of experience of hedging currency risk. As the structure could terminate prior to expiry resulting in little or no protection, the buyer should be in a strong financial position and should also be employing other guaranteed hedge products as part of their overall hedging strategy.

Term This Document assumes a term of 1 year, a typical duration for this structure type; however, the term of the contract will be agreed with you when entering into the deal. Once agreed, the buyer retains the right to request cancellation of the contract prior to expiry on demand, although this will incur a cost (see below). Western Union reserves the right to terminate the contract only in circumstances where the buyer is in breach of the contract terms, or becomes insolvent.

What are the risks and what could I get in return?

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 12 months. The actual risk can vary significantly if you end your product at an early stage and you may get back less. You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

The Summary Risk Indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future market performance at a very high level, and poor market conditions are very likely to impact the capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

In some circumstances you may be required to make payments to pay for losses. The total loss you may incur may significantly exceed the amount invested.

If we are not able to pay you what is owed, you could incur significant losses

Nominal Amount EUR 10,000

Scenarios		12 months (Recommended Holding Period)
Stress Scenario	What you might get back or pay after costs	EUR -1,937
	Percentage return/loss over nominal amount	-19%
Unfavourable Scenario	What you might get back or pay after costs	EUR -646
	Percentage return/loss over nominal amount	-6%
Moderate Scenario	What you might get back or pay after costs	EUR 1,185
	Percentage return/loss over nominal amount	12%
Favourable Scenario	What you might get back or pay after costs	EUR 1,376
	Percentage return/loss over nominal amount	14%

The table shows the money you could get back or pay over the next 12 months (Recommended Holding Period), under different scenarios, assuming a nominal value of EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios for other products.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this product varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product

This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end before the end of the recommended holding period. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What Happens If Western Union International Bank GmbH is unable to pay out?

As counterparty to your product you are relying upon WUIB's financial ability to fulfil its obligations to you upon maturity of the contract. This means that if WUIB is unable to pay out, you may not receive any amount at maturity of this contract. To aid in your assessment of this risk WUIB will provide you with a copy of its latest audited financial statements upon request. You may request a copy of our most recent financial statements by emailing us at options@westernunion.com.
